

# “The entire solution to detention equipment”

**CellCon Pty Ltd** was established in January 2006 combining the experience of three key personnel to provide a professional business with specialised staff to Government and Corporate clients. **CellCon Pty Ltd** specialises in the design, manufacture and installation of new security steelwork for Police Stations, Correctional Centres, Law Courts, Detention Centres and any application requiring low or high level secure steelwork. In addition we are continually adding products, such as **Tonali Secure Entrances** and **Gold Medal Safety Padding** to provide our clients with a comprehensive solution. We also provide an ongoing maintenance service on existing facilities.

With extensive experience in Security and Detention Products **CellCon Pty Ltd** provides a vast array of knowledge and experience in Police Station and Correctional Facility Projects.

## Specialising in but not limited to:

- New steel or timber doors. From low security access doors to steel constructed cell/maximum security doors fitted with client specified hardware.
- Secure windows, officers stations, interview screens, vision panels and glazed screens.
- Detention grade furniture, beds, stools, cell seats and exercise yard seating.
- Low and high level intruder resistance glazing, ballistic glazing and polycarbonates.
- Maintenance on existing facilities including replacement glass and polycarbonate.
- We design, manufacture and install to suit our clients needs.

## Other products and services

We would welcome your enquiry for any of our listed services and products, however we are not limited to these alone. If you have a specialised security requirement please do not hesitate to direct your enquiry to **CellCon Pty Ltd**.

We have an extensive International network of related businesses and would be happy to use these for your enquiry.

Specialist manufacture and delivery is our strength as well as performing extremely high standards of rectification work for existing sites.

We have the ability to deliver and install to any site in Australia, New Zealand or other Asia Pacific countries.

We would welcome your enquiry and opportunity to be involved in your projects.

Manufacturing to our client's specific requirements is our main focus however we have already obtained exclusive rights to the following products. The trust of these companies to provide **CellCon Pty Ltd** exclusivity comes from previous experience dealing with the operators of CellCon.

- **Gold Medal Safety Padding**

Exclusive agents for the supply and installation of Gold Medal Safety Padding for seclusion, observation or violent detainee Cells within Police Stations, Hospitals and Correctional Centres. These rooms provide protection for those that are violent, at risk of self harm, or suffering the affects of drugs and alcohol.

- **Tonali Access Control Booths**

Exclusive agents for Tonali security rotating or static entry booths for use in Correctional, Banking or Government facilities for providing controlled access and entry. These booths have integrated metal detection, volumetric measurement and single person capabilities.

- **Forensic Solutions Inc**

Exclusive agents for FSI Evidence Preservation Systems for use by Police, Crime Scene Investigators and DNA Forensic Services groups. This system is a world first for collecting and preserving DNA evidence.

- **Southern Folger Institutional Locks** (non exclusive)

We have extensive experience and our preference is to use Southern Folger Institutional Locks however as stated we will meet our clients requirements.
